III. STATEMENT OF NEEDS

A. AUDIT REQUIREMENTS

As required by the Official Code of Georgia Annotated, the audit shall be conducted in accordance with auditing standards generally accepted in the United States of America, promulgated by the American Institute of Certified Public Accountants (AICPA) and in accordance with the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. ***If a Single Audit is required as a part of the annual audit, the audit shall be performed in accordance with American Institute of Certified Public Accountants (AICPA) Standards, Government Auditing Standards, and the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F.***

B. GROUP AUDITS

One of the audit standards generally accepted in the United States of America that will likely affect this audit is AU-C Section 600B – Special Considerations – Audits of Group Financial Statements (Including the Work of Component Auditors). Some relevant items likely to have an impact on this audit are listed below.

1. It is effective for periods **ENDING on or after 12/15/2012**
2. Definition of “component” for purposes of this AU-C is “an entity or business activity for which group or component management prepares financial information that is required by the applicable financial reporting framework to be included in the group financial statements.”
3. Operational, organizational, and legal considerations need to be considered.
4. Indicators of a component:
 - a. Another auditor does part of the audit
 - b. Separate legal entity
 - c. Separate governance structure
 - d. Outsourced operations
 - e. Equity method investments
 - f. Additional considerations for a government:
 - i. Components need to be evaluated within each opinion unit
 - ii. Where there is another auditor or legally separate entity, these are automatically a component
 - iii. Pension or OPEB trust funds are likely components
 - iv. Departments within a major fund that are separately managed may also be components
 - g. Group engagement team must gain sufficient understanding of group, components, and environment to:
 - i. Identify & assess risks of material misstatements at group level
 - ii. Identify significant accounts and disclosures at group level
 - iii. Identify significant components
 - iv. Determine timing and type of audit work to be done at significant and non-significant components
 - v. Determine nature, timing, and extent of work to be done at group level
5. Identify Significant Components
 - a. Based on individual financial significance
 - b. Use a benchmark and percentage (like calculating tolerable misstatement)
 - c. Also, if the risk of material misstatement exists even if not individually financially significant
6. Understand Component Auditor
 - a. Do they understand and will they comply with ethical requirements (including independence)
 - b. Professional competence
 - c. Extent to which the group engagement team will be able to be involved in the work of the component auditor
 - d. Will the group engagement team be able to obtain information affecting the consolidation process from the component auditor
 - e. Does the component auditor operate in an environment that actively oversees auditors
7. Subsequent events for component
 - a. Will need to be evaluated through date of overall audit report
 - b. Have component unit auditor update subsequent event procedures from date of their audit report to date of overall audit report

- i. It may be advisable for management of primary government to enter into a written agreement with the component unit that they will request their auditors to perform these procedures and forward results to primary government (group) auditor

There has always been a requirement to review subsequent events. In the past, this was performed for the health department up to the date of the report on the health department financial statements not the date of the report on the county financial statements. For example, if the health department audit was finished in November for a June 30 year-end but the county audit was not completed until the following June for a December 31 year end, there is a significant period of time that will pass between the time the health department's financial statements are issued and the time the county's financial statements are issued. This means that the operations of the health department will have to be reviewed to the date of the county audit report to determine if there has been any significant event related to the health department that needs to be disclosed in the county's notes to the financial statements.

We think that the lowest cost way to meet this new requirement would be to have the health department auditor perform this review. They are already familiar with the operations and know which management person they should discuss the matter with. Since this work may only partially benefit the planning for the audit of the next year's audit of the financial statements, their auditor will likely want to charge an additional fee for this service.

We will coordinate with the health department to determine whether or not the county will pay for this additional cost or whether it should be absorbed by the health department.

8. If CU auditor refuses to do these procedures, the primary government will need the component unit management to provide information to the group auditor, so they are able to evaluate subsequent events
 - a. Request written representation from CU management
 - b. Review interim financial statement budget to actual reports
 - c. Inquiry about CU management
 - d. Read CU minutes
 - e. Other procedures
9. Communication with Component Auditor (existing letter from the group auditor to component auditor will need to be expanded somewhat)
 - a. Confirm that they will cooperate
 - b. They will follow ethical requirements including independence
 - c. They will provide a list of related parties
 - d. They will communicate to the group auditor matters relevant such as findings, conclusion, opinion,
 - e. They will provide a list of passed Adjusting Journal Entries (AJE) so group auditor can assess effect at group level
10. Document all of these procedures
11. Communicate with those charged with governance (planning stage)
 - a. Type of work to be done on components
 - b. Involvement of other auditors
 - c. Any limitations on access to information
 - d. Fraud or suspected fraud at component

C. AUDIT OBJECTIVES

The audit shall be designed to accomplish the following objectives:

1. To determine whether the financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information and the respective changes in financial position and, where applicable, cash flows, thereof [and the respective budgetary comparison for the (indicate the major governmental funds involved)] in conformity with accounting principles generally accepted in the United States of America. In addition, to determine whether the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(Note 1: AAG-SLG, par. 16.04 allows under certain circumstances the combining of the two aggregate opinion units – the one for the aggregate discretely presented component units and the one for the aggregate remaining fund information – into a single opinion unit. If this is desired reference to these terms should not be used. Instead, the term “aggregate discretely presented component unit and remaining fund information” should be used.)

(Note 2: If the government desires an opinion on the basic financial statements and on the combining and individual fund financial statements presented as supplementary information, the last sentence above should be replaced with the following (modified as appropriate):

In addition, to determine whether the financial statements presented as supplementary information present fairly, in all material respects, the respective financial position of each of the government’s nonmajor governmental, nonmajor enterprise, internal service, and fiduciary funds and the respective changes in financial position and cash flows, where applicable, thereof in conformity with accounting principles generally accepted in the United States of America.

2. To obtain an understanding of the five components of internal control that is sufficient to assess the risks of material misstatement of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures. Because an audit of a government’s financial statements is based on opinion units, the auditor’s consideration of internal control in assessing the risks of material misstatement should address each opinion unit. The auditor should obtain a sufficient understanding by performing risk assessment procedures to (a) evaluate the design of controls and (b) determine whether they have been implemented. The auditor should use such knowledge to identify types of potential misstatements; consider factors that affect the risks of material misstatement; and design tests of controls, when applicable, and subsequent procedures. In acquiring an understanding of and assessing internal control, the auditor should consider computer controls as well as the controls over manual portions of the system.
3. To plan and perform the audit to obtain reasonable assurance about whether the financial statements, including note disclosures, are free of material misstatement, whether caused by error or fraud, and material misstatements arising from illegal acts that have a direct and material effect on the determination of financial statement amounts. Illegal acts are defined in auditing standards as violations of laws or governmental regulations. Although not explicitly stated in auditing standards, the phrase

“laws and governmental regulations” generally has been interpreted to implicitly include the provisions of contract and grant agreements. U.S. Auditing Standards – AICPA (Clarified) AU-C Section 250 paragraph .14 requires the auditor to consider laws and regulations that are generally recognized by auditors to have a direct and material effect on the determination of financial statement amounts. The auditor’s responsibility to detect and report misstatements resulting from illegal acts having a direct and material effect on the determination of financial statement amounts is the same as that for misstatements caused by error or fraud. In addition, the auditor should be aware of the possibility that illegal acts that may, in particular circumstances, be regarded as having material but indirect effects on financial statements may have occurred. If specific information comes to the auditor’s attention that provides evidence concerning the existence of possible illegal acts that could have a material indirect effect on the financial statements, the auditor should apply audit procedures specifically directed to ascertaining whether an illegal act has occurred.

(Additional Requirement for Audits in Accordance with Government Audit Standards)

4. To provide reasonable assurance of detecting material misstatements that result from violations of provisions of contracts or grant agreements that could have a direct and material effect on the determination of financial statement amounts or other financial data significant to the audit objectives. If specific information comes to the auditor’s attention that provides evidence concerning the existence of possible violations of provisions of contracts or grant agreements that could have a material indirect effect on the financial statements, the auditor should apply audit procedures specifically directed to ascertaining whether such violations have occurred. If during the course of the audit, auditors become aware of abuse that could be quantitatively or qualitatively material to the financial statements or other financial data significant to the audit objectives, the auditor should apply audit procedures specifically directed to ascertain the potential effect on the financial statements or other financial data significant to the audit objectives.
5. To evaluate whether the government entity has taken appropriate corrective action to address findings and recommendations from previous engagements that could have a material effect on the financial statements or other financial data significant to the audit objectives. Auditors should use this information from previous engagements in assessing risk and determining the nature, timing, and extent of current audit work, including determining the extent to which testing the implementation of the corrective actions is applicable to the current audit objectives.
6. To ensure that audit documentation is prepared in sufficient detail to provide a clear understanding of the nature, timing, and extent of auditing procedures performed to comply with generally accepted government auditing standards and other applicable standards and requirements; the results of the audit procedures performed and the audit evidence obtained; the conclusions reached on significant matters; and that the accounting records agree or reconcile with the audited financial statements. Auditors should also document, before the audit report is issued, evidence of supervisory review of the work performed that supports findings, conclusions, and recommendations contained in the audit report.

The Uniform Grant Guidance Subpart F, section 200.501 requires that “a non-Federal entity that expends \$750,000 or more during the non-Federal entity’s fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part.” Entities that expend less than \$750,000 in a fiscal year in federal awards are exempt from audit

requirements in the UGG.)

7. To determine whether the government entity complied with laws, regulations, and the provisions of contracts or grant agreements pertaining to federal awards that may have a direct and material effect on each major program. With regard to internal control over compliance, the auditor is required to do the following (in addition to meeting the requirements of Government Auditing Standards): (1) perform procedures to obtain an understanding of internal control over federal programs that is sufficient to plan the audit to support a low assessed level of control risk for major programs, (2) plan the testing of internal control over major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program, and (3) perform tests of internal control (unless the internal control is likely to be ineffective in preventing or detecting noncompliance).

(For federal awards after December 26, 2014. Additional Requirements for Audit in Accordance with the Single Audit Act and UGG Subpart F.) The Single Audit Act and UGG Subpart F require nonfederal entities that expend \$750,000 or more of federal awards in a fiscal year to have a single audit. Entities that expend less than \$750,000 in a fiscal year in federal awards are exempt from audit requirements in the Single Audit Act and UGG Subpart F.)

8. To determine whether the government entity complied with Federal statutes, regulations, and the terms and conditions of Federal awards that may have a direct and material effect on each of its major programs. With regard to internal control over compliance, the auditor is required to do the following (in addition to meeting the requirements of Government Auditing Standards): (1) perform procedures to obtain an understanding of internal control over federal programs that is sufficient to plan the audit to support a low assessed level of control risk for major programs, (2) plan the testing of internal control over major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program, and (3) perform tests of internal control (unless the internal control is likely to be ineffective in preventing or detecting noncompliance).

(Additional Requirements for Audits Conducted in Accordance with the Official Code of Georgia Annotated)

9. If applicable, to verify and test the Schedule of Nonpublic Funds, including the beginning balance of unexpended nonpublic funds, receipts and expenditures of nonpublic funds, and the ending balance of nonpublic funds for each fiscal year, sufficient to express an opinion in accordance with generally accepted government auditing standards as required by the Official Code of Georgia Annotated, Section 50-8-35(f)(2).
10. To verify and test expenditures of the government's Special Purpose Local Option Sales Tax proceeds. In accordance with the Official Code of Georgia Annotated, Section 48-8-121, a schedule shall be included in each annual audit which shows for each project in the resolution or ordinance calling for imposition of the Special Purpose Local Option Sales Tax the original estimated cost, the current estimated cost if it is not the original estimated cost, amounts expended in prior years, and amounts expended in the current year. The auditor shall verify and test expenditures sufficient to provide assurance that the schedule is fairly presented in relation to the financial statements. The auditor's report on the financial statements shall include an opinion, or disclaimer of opinion, as to whether the schedule is presented fairly in all material respects in relation to the financial statements

taken as a whole.

11. To verify and test expenditures of the government's Special District Mass Transportation Sales and Use Tax proceeds. In accordance with the Official Code of Georgia Annotated, Section 48-8-269.5, a schedule shall be included in each annual audit which shows for each project in the resolution or ordinance calling for imposition of the Special District Mass Transportation Sales and Use Tax the original estimated cost, the current estimated cost if it is not the original estimated cost, amounts expended in prior years, and amounts expended in the current year. The auditor shall verify and test expenditures sufficient to provide assurance that the schedule is fairly presented in relation to the financial statements. The auditor's report on the financial statements shall include an opinion, or disclaimer of opinion, as to whether the schedule is presented fairly in all material respects in relation to the financial statements taken as a whole.
12. For counties and municipalities levying and collecting a hotel/motel tax in accordance with the provisions of O.C.G.A. §48-13-51, the determination as to whether a county or municipality has complied with the expenditure requirements of this Code section should be prominently reflected in the audit required under Code section 36-81-7 and shall disclose (i) the amount of funds expended or contractually committed for expenditure as provided within the Code section during the fiscal year; and (ii) the amount of tax receipts under this Code section during such fiscal year, and (iii) expenditures as a percentage of tax receipts. A county or municipality contractually expending funds to meet the expenditure requirements of this Code section shall require the contracting party to provide audit verification that the contracting party makes use of such funds in conformity with the requirements of the Code section.
13. ***To verify and test expenditures of the government's proceeds from the Governor's emergency fund or a special project appropriation in accordance with the Official Code of Georgia Annotated, Section 36-81-8.1. A properly completed grant certification form shall be filed on each grant with the annual audit report for each year in which such grant funds are expended or remain unexpended. If required under this Code section, the auditor shall certify that the grant funds were used solely for the express purpose or purposes for which the grant was made. The Georgia Department of Audits and Accounts can assist with the identification of grants subject to these reporting requirements and has a Grant Certification package available containing instructions and example formats.***

5. Any other reports required shall be submitted to the government entity upon request.
6. A preliminary draft of all reports shall be submitted to the government entity prior to their release. The government entity will review and approve the release of all draft reports. Draft reports should be submitted to the City Manager, City Hall, 124 North Avenue, Jonesboro, GA 30236

The work plan must include time estimates for and identification of each significant segment of the work and the staff level to be assigned. The work plan must also include an explanation of the audit methodology to be followed to perform the services required in this request for proposals. The planned use of specialists must also be specified. In developing the work plan, reference should be made to such sources as the government entity's budget and related materials, organizational charts, programs, and financial and other management information systems. Proposers will be required to provide the following information on their audit approach:

- Sampling techniques and the extent to which statistical sampling may be used in the engagement;

Indicate the scope of work, date, engagement partner(s), total hours, and the name, telephone number, and email address of the client contact.
 - There should be no dollar units or total costs included in the technical component of the proposal.

3. COST COMPONENT OF PROPOSAL

For use following the technical phase of the procurement, the following information must be included in a **separate sealed** envelope marked "For Cost Phase Only" as specified in this RFP, Section VII, and Part H:

- a. Total hours required to complete the engagement for each year by personnel levels (i.e., total hours for partner, manager, supervisor, senior and junior).
- b. Total fees for audit services for each year.
- c. An amount of professional services, in hours, allowed each year without additional cost to the government entity. Such services will not be directly related to the annual audit.

A separate cost proposal is required for each year of the contract period specified in Section VII, Part E of this Request for Proposals.

Out-of-pocket expenses for firm personnel (e.g., travel, lodging and subsistence) will be reimbursed at the rates used by the government entity for its employees. All estimated out-of-pocket expenses to be reimbursed should be presented in the sealed dollar cost bid in the format recommended in Attachment

C. All expense reimbursements will be charged against the total all-inclusive maximum price submitted by the firm. By submitting a proposal, the proposer certifies that the firm will accept reimbursement for travel, lodging and subsistence at the prevailing rates for employees of the government entity.

V. **EVALUATION AND AWARD CRITERIA**

The following factors will be considered during the evaluation:

A. TECHNICAL FACTORS

1. Responsiveness of the proposal in clearly stating an understanding of the work to be performed, including making all required statements and affirmations. Proposals should be organized in accordance with Attachment C: Model Format of Proposal.

The following elements will be considered:

- a. Appropriateness and adequacy of proposed procedures.
 - b. Necessity of procedures.
 - c. Reasonableness of time estimates.
 - d. Appropriateness of assigned staff levels.
 - e. Timeliness of projected completion.
2. Technical experience of the firm.
 3. Qualifications of staff, including recent pertinent continuing education.
 4. Size and structure of the firm.
 5. Prior experience with the firm with emphasis on report and work paper quality and record of accomplishment of meeting agreed upon delivery dates.

B. COST FACTORS

Although cost is a significant factor, it will not be the dominant factor. Cost will be given more importance when all the other evaluation criteria are relatively equal. The general approach is to first identify all qualified, responsive proposers and then to award the audit to the lowest cost proposer in that group.

If there is reason to believe that an unreasonably low proposal has been made, it will be rejected. One method of measuring reasonableness is to divide the proposed cost by a reasonable average hourly rate to show hours of effort that might be expected.

Any proposal which does not include all the required statements and affirmations called for in this RFP will be automatically rejected as not being responsive.

VI. **GENERAL TERMS AND CONDITIONS**

A form of Agreement for Audit Services to be executed between the auditor and the government entity is included herein as Attachment E Sections VI and VII contain general and special terms and conditions which will be incorporated into the Agreement by reference.

A. APPLICABLE LAW AND COURTS

M. INTEGRATED AGREEMENT

Any resulting contract represents the entire and integrated agreement between the auditor and government entity and supersedes all prior negotiations, representations, or agreements, whether written or oral. The contract may only be amended by written agreement of the auditor and the government entity.

Engagement Letter – As discussed in the AICPA Audit Guide “Audits of Local Governments” Section 202 Establishing Terms of the Engagement - both GAAS and the Yellow Book require the auditor to establish a written understanding with the client about the services to be performed for each engagement. The auditor and client ought to have a clear understanding about certain matters normally found in engagement letters, related to such matters as the need for receiving written management representations, any agreed-upon client assistance, and limitations on the responsibility for the detection of fraud and defalcations. One of the preconditions for an audit is to obtain the agreement of management that they acknowledge and understand their responsibilities. That agreement generally is obtained through the use of an engagement letter. The auditor will submit a draft engagement letter that, if accepted by the auditee, will be incorporated into the contract with the auditor – see Attachment F: Sample Engagement Letter.

Q. CHANGES IN AUDITING STANDARDS/FEDERAL REQUIREMENTS

As professional auditing standards or federal auditing requirements change, the auditor shall adjust his/her auditing techniques and reporting formats and criteria so the new standards and requirements are met. R. RATES FOR ADDITIONAL PROFESSIONAL SERVICES

If it should become necessary for the government entity to request the auditor to render any additional services to either supplement the services requested in this request for proposals or to perform additional work as a result of the specific recommendations included in any report issued on this engagement, then such additional work shall be performed only if set forth in an addendum to the contract between the government entity and the firm. [CPA Firm’s Letterhead]

[Date]

To [Identify the body or individual(s) charged with governance.] and [Name of Management]

We are pleased to confirm our understanding of the services we are to provide [Name of Governmental Unit] for the [period, year, OR years] ended [Date(s)]. We will audit the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information, including the related notes to the financial statements, which collectively comprise the basic financial statements, of [Name of Governmental Unit] as of and for the [period, year, OR years] ended [Date(s)]. Accounting standards generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management’s discussion and analysis (MD&A), to supplement [Name of Governmental Unit]’s basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to [Name of Governmental Unit]’s RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

1. Management’s Discussion and Analysis.
2. Budgetary Comparison Schedule – General Fund
3. Schedule of Funding Progress – Pension
4. Schedule of Funding Progress - OPEB
5. Sources of Changes in the Net Pension Liability
6. Components of the Net Pension Liability and Related Ratios, including the Pension Plan’s Fiduciary Net Position as a Percentage of Total Pension Liability, and the Net Pension Liability as a Percentage of Covered-Employee Payroll.

If the contributions of a single or agent employer are actuarially determined, the employer should present in required supplementary information a schedule covering each of the 10 most recent fiscal years that includes information about the actuarially determined contribution, contributions to the pension plan, and related ratios. If the contributions of a single or agent employer are not actuarially determined but are established in statute or by contract, the employer should present a schedule covering each of the 10 most recent fiscal years that includes information about the statutorily or contractually required contribution rates, contributions to the pension plan, and related ratios.

We have also been engaged to report on supplementary information other than RSI that accompanies [Name of Governmental

Unit]’s financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and we will provide an opinion on it in relation to the financial statements as a whole, [in a separate written report accompanying our auditor’s report on the financial statements OR in a report combined with our auditor’s report on the financial statements]:

1. Schedule of expenditures of federal awards.
2. Combining statements, individual fund statements and schedules
3. Schedule of Projects constructed with Special Purpose Local Option Sales Tax

[The following other information accompanying the financial statements will not be subjected to the auditing procedures applied in our audit of the financial statements, and our auditor’s report will not provide an opinion or any assurance on that other information.]

Audit Objectives

The objective of our audit is the expression of opinions as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. The objective also includes reporting on:

1. Internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements in accordance with *Government Auditing Standards*.
2. Internal control related to major programs and an opinion (or disclaimer of opinion) on compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on each major program in accordance with the **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**.

The *Government Auditing Standards* report on internal control over financial reporting and on compliance and other matters will include a paragraph that states that (1) the purpose of the report is solely to describe the scope of testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance, and (2) the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. The **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F** report on internal control over compliance will include a paragraph that states that the purpose of the report on internal control over compliance is solely to describe the scope of testing of internal control over compliance and the results of that testing based on the requirements of the **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**.

Both reports will state that the report is not suitable for any other purpose.

Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America; the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**, and will include tests of accounting records, a determination of major program(s) in accordance **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**, and other procedures we consider necessary to enable us to express such opinions. We will issue written reports upon completion of our single audit. Our reports will be addressed to [Identify parties, such as management and the governing board.] of [Name of Governmental Unit]. We will make

reference to [Name of Component Auditor]'s audit of [Name of Component] in our report on your financial statements.

We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions or add emphasis-of-matter or other-matter paragraphs. If our opinions on the financial statements or the single audit compliance opinions are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or issue reports, or we may withdraw from this engagement.

Management Responsibilities

Management is responsible for the basic financial statements, schedule of expenditures of federal awards, and all accompanying information as well as all representations contained therein. Management is also responsible for identifying all federal awards received and understanding and complying with the compliance requirements, and for preparation of the schedule of expenditures of federal awards (including notes and noncash assistance received) in accordance with the requirements of **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**.

In addition, we will assist with preparation of your financial statements, schedule of expenditures of federal awards, and related notes. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*. You agree to assume all management responsibilities relating to the financial statements, schedule of expenditures of federal awards, and related notes and any other nonaudit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements and schedule of expenditures of federal awards and related notes and that you have reviewed and approved the financial statements, schedule of expenditures of federal awards, and related notes prior to their issuance and have accepted responsibility for them. Further, you agree to oversee the nonaudit services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Management is responsible for (1) establishing and maintaining effective internal controls, including internal controls over compliance, and for evaluating and monitoring ongoing activities to help ensure that appropriate goals and objectives are met; (2) following laws and regulations; (3) ensuring that there is reasonable assurance that government programs are administered in compliance with compliance requirements; and (4) ensuring that management and financial information is reliable and properly reported.

Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles; for the preparation and fair presentation of the financial statements in conformity with U.S. generally accepted accounting principles; and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements.

Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, (2) additional information that we may request for the purpose of the audit, (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence and (4) issuing instructions to components related to the audit. Your responsibilities also include identifying significant vendor relationships in which the vendor has responsibility for program compliance and for the accuracy and completeness of that information. Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing

us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants. Management is also responsible for taking timely and appropriate steps to remedy fraud and noncompliance with provision of laws, regulations, contracts, and grant agreements, or abuse that we report. Additionally, as required by **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**, it is management's responsibility to follow up and take corrective action on reported audit findings and to prepare a summary schedule of prior audit findings and a corrective action plan. The summary schedule of prior audit findings should be available for our review on [Date].

You are responsible for preparation of the schedule of expenditures of federal awards (including notes and noncash assistance received) in conformity with **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**. You agree to include our report on the schedule of expenditures of federal awards in any document that contains and indicates that we have reported on the schedule of expenditures of federal awards. You also agree to [include the audited financial statements with any presentation of the schedule of expenditures of federal awards that includes our report thereon OR make the audited financial statements readily available to intended users of the schedule of expenditures of federal awards no later than the date the schedule of expenditures of federal awards is issued with our report thereon]. Your responsibilities include acknowledging to us in the written representation letter that (1) you are responsible for presentation of the schedule of expenditures of federal awards in accordance with **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**; (2) you believe the schedule of expenditures of federal awards, including its form and content, is fairly presented in accordance with **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reasons for such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the schedule of expenditures of federal awards.

You are also responsible for the preparation of the other supplementary information, which we have been engaged to report on, in conformity with U.S. generally accepted accounting principles. You agree to include our report on the supplementary information in any document that contains, and indicates that we have reported on, the supplementary information. You also agree to [include the audited financial statements with any presentation of the supplementary information that includes our report thereon OR make the audited financial statements readily available to users of the supplementary information no later than the date the supplementary information is issued with our report thereon]. Your responsibilities include acknowledging to us in the written representation letter that (1) you are responsible for presentation of the supplementary information in accordance with GAAP; (2) you believe the supplementary information, including its form and content, is fairly presented in accordance with GAAP; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reasons for such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying for us previous financial audits, attestation engagements, performance audits, or other studies related to the objectives discussed in the Audit Objectives section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

With regard to using the auditor's report, you understand that you must obtain our prior written consent to reproduce or use

our report in bond offering official statements or other documents.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of abuse is subjective, *Government Auditing Standards* do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements or noncompliance may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements or major programs. However, we will inform the appropriate level of management of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential, and of any material abuse that comes to our attention. We will include such matters in the reports required for a Single Audit.

Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will request written representation from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; schedule of expenditures of federal awards; federal award programs; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by generally accepted auditing standards.

Audit Procedures—Internal Control

Our audit will include obtaining an understanding of the government and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*.

As required by **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**, we will perform tests of controls over compliance to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each major federal award program. However, our tests will be less in scope than would be necessary to render an opinion on those controls and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**. An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards, *Government Auditing Standards*, and **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F**.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of [Name of Governmental Unit]’s compliance with provisions of applicable laws, regulations, contracts, and agreements, including grant agreements. However, the objective of those procedures will not be to provide an opinion on overall compliance and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Subpart F requires that we also plan and perform the audit to obtain reasonable assurance about whether the auditee has complied with applicable laws and regulations and the provisions of contracts and grant agreements applicable to major programs. Our procedures will consist of tests of transactions and other applicable procedures described in the **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200 (Uniform Grant Guidance (UGG)) Appendix XI** for the types of compliance requirements that could have a direct and material effect on each of [Name of Governmental Unit]’s major programs.
